YOUTH ACADEMY

Theatre education training classes designed around students who have a passion for theatre and a desire to improve their skills and techniques.

Classes begin the week of October 28, 2019

➔ Level 1 ←

These classes are tailored to the student at the beginning of their theatre experience. Each week new concepts, vocabulary, games, and activities are taught which serve to teach the student how to effectively use their personal experiences, voice, and physicality to best tell a story. Focus is on the importance of team/ensemble building in the theatre.

➔ Level 1 Musical Theatre ←

Musical theatre level one classes will additionally include a group vocal lesson each week where basic music theory is introduced and proper breath support and singing practices are taught. We will focus on presenting three musical projects at the end of each course.

➔ Level 2 ←

This level of acting class places more focus on the individual as a solo performer. Weekly activities and projects are taught with a focus on creating a character and breaking down the text to its most fundamental elements. We will explain the process of the professional audition and assist the students with compiling a head shot, resume, monologue, and in the case of musical theatre - a sixteen - thirty two bar vocal selection suitable for audition purposes.
